No.1.	Jan – Mar.....	Page	01 – 55
No.2.	Apr – Jun	Page	56 – 114
No.3.	Jul – Sep.....	Page	116 – 169
No.4.	Oct – Dec.....	Page	170 – 237

Subject Index

Abstracts: 28: 53, 112-3, 166, 227-28.

Adnexa

- Comparison of dacryocystorhinostomy with mitomycin c against dacryocystorhinostomy with intubation in patients of nasolacrimal duct block 28: 214-8.
- Problems / complications, success rate – endoscopic dacryocystorhinostomy 28: 17: 21.
- Timing of probing for congenital nasolacrimal duct obstruction 28: 43-6.

Cataract

- Modified technique of four point scleral sutured posterior chamber intraocular lens without scleral flaps 28: 188-93.
- Pre-operative screening of patients for Hepatitis B and C virus 28: 69: 71.
- Randomized clinical trial of topical versus retrobulbar anesthesia for phacoemulsification: comparison of patient satisfaction 28: 157-60
- Visual outcome and complications of anterior chamber intraocular lens versus scleral fixated intraocular lens 28: 206-210.

Community

- Conservative management of congenital eversion of the upper lid in a nigerian child 28: 222-3.
- Factors influencing choice of specialty amongst nigerian ophthalmologists 28: 10-13.
- Pattern of ocular problems in school going children of district lasbela, Balochistan 28: 200-05.
- Prevalence of incidental amblyopia in buraidah city 28: 140-3.
- Prevalence of oculo-visual disorders amongst university students in varanasi district, north india 28: 86-90.
- Pattern of eye diseases in an air force hospital in nigeria 28: 144-8.

Conjunctiva

- Comparison of pterygium recurrence rate between consultants and residents using 5 fu as an adjuvant after excision of primary pterygium 28: 219-21.
- Role of subconjunctival bevacizumab in treatment of pterygium 28: 132-5.

Cornea

- Corneal graft in children 28: 72-6.
- Conductive keratoplasty for presbyopia 28: 184-7.
- Evaluation of fresh human amniotic membrane transplantation for the treatment of corneal perforation and impending corneal perforation 28: 194-9.
- Side effects and effectiveness of subconjunctival bevacizumab injection in patients with corneal neovascularization 28: 33-7.
- Visual and keratometric results after corneal collagen cross linking in keratoconus 28: 179-83.

Editorial

- Femtosecond laser assisted cataract surgery 28: 116-7.
- Ophthalmic viscosurgical devices (ovds) past, present and future 28: 56-9
- Restructuring of Pakistan Journal of Ophthalmology 28: 1,2.
- Physical examination of patients from a glaucoma perspective 28: 170-1.

Glaucoma

- Idiosyncratic topiramate – induced high myopic shift with angle closure glaucoma 28: 224-6.
- Outcome of mitomycin-c augmented trabeculectomy in primary congenital glaucoma 28: 136-9.
- Transscleral diode laser cyclophotocoagulation for refractory glaucoma 28: 22-6.

News and Events: 28: 54, 114, 167-8, 229-30.

Peds Opth

- Avoid eua; adequate examination possible under sedation with chloral hydrate 28: 91-4.
- Bilateral optic disc drusen in a hypermetropic children of a family 28: 163- 5.
- Citicoline treatment of children with visual impairment; a pilot study 28: 172-8.

Retina

- Corneal topography pattern in healthy volunteers coming to the ophthalmology department hayatabad medical complex, peshawar as attendants 28: 81-5.
- Effect of bevacizumab and laser in the management of diabetic maculopathy 28: 27-32.
- Intravitreal bevacizumab for treatment of diabetic macular edema 28: 3-9.
- Incidence of endophthalmitis after bevacizumab (avastin) 28: 66-8.
- Intravitreal Bevacizumab for the Treatment of Subfoveal Choroidal Neovascularization Secondary to Age Related Macular Degeneration 28: 211-3.
- Outcome of rhegmetogenous retinal detachment surgery in uncomplicated pseudophakic eyes 28: 38-42.
- Outcome of macular hole surgery at mayo hospital, Lahore 28: 77-80.
- Prevalence of diabetic retinopathy in patients of age group 30 years and above attending multicentre diabetic clinics in Karachi 28: 99-104.
- Retinal redetachment after silicone oil removal 28: 127-32.
- Total retinal detachment 28: 49- 53.
- To compare the effect of intravitreal bevacizumab on the resolution of macularedema secondary to diabetic retinopathy and branch retinal vein occlusion 28: 60-5.
- Visual outcome after intravitreal bevacizumab for macular edema secondary to branch retinal vein occlusion 28: 154-6.
- Yag laser for macular subhyaloid hemorrhage 28: 105-8.

Sclera

- Congenital erythropoietin porphyria (cep) - a case of necrotic scleritis 28: 47: 8.

Squint

- Graded recession for primary inferior oblique over action 28: 122-6.

Trauma

- Epidemiology of penetrating ocular trauma 28: 14-6.
- Management of intraocular foreign body in tertiary care hospital 28: 118-121.
- Presentation of ocular and orbital dermoid cysts at holy family hospital Rawalpindi 28: 95-8.
- Sebaceous gland carcinoma of the lower eyelid 28: 109-111.

Uveitis

- Presentation of posner schlossman syndrome and viral uveitis 28: 161-2.

Uveitis

- Sulfadiazine plus clindamycin and trimethoprim / sulfamethoxazole plus clindamycin versus standard treatment for therapy of ocular toxoplasmosis 28: 149- 53.

Vitreous

- Cholesterosis bulbi in a painful blind eye with high intraocular pressure and long standing 28:

Zafar S: Corneal graft in children 28: 72-6.

Zaheer M: Graded recession for primary inferior oblique over action 28: 122-6.

Zafar S: Management of intraocular foreign body in tertiary care hospital 28: 118-121.

Zadeh M: Sulfadiazine plus clindamycin and trimethoprim / sulfamethoxazole plus clindamycin versus standard treatment for therapy of ocular toxoplasmosis 28: 149- 53.

Zafar S: Bilateral optic disc drusen in a hypermetropic children of a family 28: 163- 5.

Zia S: Visual outcome after intravitreal bevacizumab for macular edema secondary to branch retinal vein occlusion 28: 154-6.

Abstracts Index

Cataract

- Early experience with the femtosecond laser for cataract surgery 28: 112.
- Phacoemulsification versus trabeculectomy in medically uncontrolled chronic angle - closure glaucoma without cataract 28: 227-8.

Conjunctiva

- Recurrence and complications after 1000 surgeries using pterygium extended removal followed by extended conjunctival transplant 28: 166.

Cornea

- Efficacy and safety of long-term corticosteroid eye drops after penetrating keratoplasty: a prospective, randomized, clinical trial 28: 53.
- Visual outcomes and safety of a refractive corneal inlay for presbyopia using femtosecond laser 28: 228.

Glaucoma

- A twenty - year follow-up study after abeculectomy: risk factors and outcomes 28: 112.

Ptosis

- Brow ptosis after temporal artery biopsy: incidence and associations 28:167.

Retina

- Benefit from bevacizumab for macular edema in central retinal vein occlusion: twelve-month results of a prospective, randomized study 28:166.
- Grid laser photocoagulation for macular edema due to branch retinal vein occlusion in the age of bevacizumab? results of a prospective study with crossover design 28:227.
- Intravitreal ranibizumab for diabetic macular edema with prompt versus deferred laser treatment: Three-year randomized trial results 28:166.
- Long-term visual acuity and the duration of macular detachment: findings from a prospective population - based study 28:227.
- Outcomes of sulfur hexafluoride (SF₆) versus perfluoroethane (C₂F₆) gas tamponade for non-posturing macular-hole surgery 28: 53.
- Ranibizumab and bevacizumab for treatment of neovascular age - related. macular degeneration: two - year results. comparison of age - related macular degeneration treatments trials (catt) research group 28: 112.

Tumor

Correlation between clinical features, magnetic resonance imaging, and histopathologic findings in retinoblastoma: a prospective study 28: 53.
