No.2.	April.....	Page 53-109
No.3.	July.....	Page 110-162
No.4	October.....	Page 215-220

Subject Index

Abstract: 24: 47-50, 24: 106-8, 24: 157-61,

Adnexa

- Ocular Myiasis 24: 151-2
- Charge Syndrome 24: 208

Cataract Surgery

- Cataract Surgery: Is it Time to Convert to Topical Anaesthesia? 24: 62-7
- Comparative Study of Endothelial Cell Loss after Phacoemulsification by Using 2% Hydroxypropyl Methylcellulose (HPMC) Versus 2.3% Sodium Hyaluronate (Healon 5) 24: 175-8
- Frequency of Diabetes Mellitus, Impaired Oral Glucose Tolerance Test, Hepatitis B Surface Antibody (HCV Ab) in Saudi Population Undergoing Cataract Surgery 24: 12-5
- Modified Limbal Incision: An Easy and Safe Window for Extraocular Muscle Surgery 24: 2-6
- Phacoemulsification Under Topical With Intarcameral Vs 1 Retrobulbar and Sub-tenon Anesthesia 24: 143-6
- Prevalence of Anti Hepatitis C Virus (HCV) Antibodies in Cataract Surgery Patients 24: 16-8
- Visual Outcome of Clear Lens Extraction (Phacorefractive) in Myopia Above -12.0 Dioptres 24: 59-61

Contact Lens

- Bacterial Contamination Among Soft Contact Lens Wearer 24:93-6

Cornea

- Epitheliotropic Effect of Autologous Serum in Persistent Corneal Epithelial Defects 24: 25-19-25
- Goldmann Applanation Tonometry (GAT) in Normal Individuals 24: 196-200
- Influence of Central Corneal Thickness (CCT) on Intraocular Pressure (IOP) Measured with Recurrence of Pterygium with Conjunctival Autograft Versus Mitomycin C 24: 29-33

Conjunctiva

- Cases of Subconjunctival Hemorrhage After a Joy Ride 24: 44-5
- Conjunctival Malignant Melanoma Mimicking As a Chalazion 24: 103-4

Diabetes

- Serum Glycoproteins in Diabetic and Non-Diabetic Patients With and Without Cataract 24: 122-6

Editorial

- Current Status of Orbital Implants in Pakistan 24:1
- Management of Dry Eye Syndrome 24: 110-1
- Management of Retinal Detachment According to Risk Factors 24: 53-4

Genetics

- Familial Ectrodactyly and Its Ocular Associations 24:26-8

Glaucoma

- Comparison of Intraocular Pressure Lowering Effect of 0.5% Levobunolol and 0.5% Timolol Maleate after Nd:YAG Laser Capsulotomy 24: 193-5
- Glaucoma Burden in a Public Sector Hospital 24: 112-7
- Latanoprost 0.005% v/s Timolol Maleate 0.5% Pressure Lowering Effect in Primary Open Angle Glaucoma 24: 68-72
- Management Tips for Glaucoma 24: 37-40
- Secondary Glaucoma - Causes and Management 24: 86-92
- The Effect of Trabeculectomy on Corneal Curvature 24: 118-21
- Trabeculectomy: A Long Term Follow-up of 455 Cases 24: 132-5

Intraocular Lens

- Scleral Fixation of Intraocular Lens 24: 184-92

Laser

- Is the Nd: YAG Laser a Safe Procedure for Posterior Capsulotomy? 24: 73-78

Eye Disease

- Pattern of Common Eye Diseases in Children Attending Outpatient Eye Department Khyber Teaching Hospital 24: 166-70

Malignancy

- Peri-Ocular and Facial Multiple Hereditary Infundibulocystic Basal Cell Carcinoma (MHIBCC) 24: 41-3

Orbit

- Clinical Presentations of Benign Intraconal Tumors 24: 179-83
- Out Come of Sahaf Enucleation Implants in 60 Patients 24: 34-6

Ptosis

- Role of Orbital Septum and Sub Orbicularis Fibroadipose Tissue in Congenital Ptosis Surgery 24: 140-2

Quiz

- Quiz: 24: 46
- Quiz 24: 105
- Quiz 24: 156
- Quiz 24:

Refractive

- Outcome of Laser in Situ Keratomeliosis (Lasik) in Low to High Myopia Review of 200 Cases 24: 127-31

Refractive error

- Myopia and Near Work Activity in Maderassa Children in Karachi 24: 136-9

Retina

- Benign Retinal Flecks with Neuroretinitis 24: 100-2
- Clinical Risk Factors for Proliferative Vitreoretinopathy-II 24: 55-8
- Management Corner: Diabetic Macular Edema 24: 147-50
- Management Corner: Ranibizumab: The Clinician's Guide to Commencing, Continuing, and Discontinuing Treatment 24: 97-9
- Optic Neuritis 24: 204-7
- Role of Fundus Fluorescein Angiography in Preproliferative Diabetic Retinopathy 24: 7-11
- Strategy for the Management of Rhegmatogenous Retinal Artery Macroaneurysm with Hard Exudate 24: 153-5
- Retinal Detachment with Proliferative Vitreoretinopathy 24: 79-85

- Serous Chorioretinopathy (CSCR) on Fundus Fluorescein Angiography 24: 171-4

Author Index

Abstracts Index

Cataract Surgery

- Central corneal thickness changes after phacoemulsification cataract surgery 24: 158
- Efficacy and Safety of Capsular Bending Ring Implantation to Prevent Posterior Capsule Opacification 24: 212
- Incidence of cataract surgery from 1980 through 2004: 25-year population-based study 24: 106
- Pulsed electron avalanche knife: new technology for cataract surgery 24: 158

Cornea

- Central Corneal Thickness Measurements Using Orbscan II, Visante, Ultrasound, and Pentacam Pachymetry After Laser in Situ Keratomileusis for Myopia 24: 47
- Intracorneal rings for keratoconus and keratectasia 24: 108
- Outcomes of radiofrequency in advanced keratoconus 24: 107
- Reproducibility and Repeatability of Central Corneal Thickness Measurement in Keratoconus Using the Rotating Scheimpflug Camera and Ultrasound Pachymetry 24: 159

Glaucoma

- Intraocular pressure on the first postoperative day as a prognostic indicator in phacoemulsification combined with deep sclerectomy 24: 213
- Phacotrabeulectomy: Assessment of outcomes and surgical improvements 24: 48
- Wearing swimming goggles can elevate intraocular pressure 24: 212

Intraocular lens

- Intraocular Lens Centration and Visual Outcomes After bag-in-the-Lens Implantation 24: 50
- Prospective Visual Evaluation of Apodized Diffractive Intraocular Lenses 24: 48
- Visual Acuity and Contrast Sensitivity: Acrysof Restor Apodized Diffractive Versus Acrysof SA60AT Monofocal Intraocular Lenses 24: 49
- Visual performance and biocompatibility of 2 multifocal diffractive IOLs: Six-month comparative study 24: 157

Vision

Vision-related quality of life in patients with pituitary adenoma 24: 214

Orbit

Diverse Clinical Presentations of Orbital Sarcoid 24: 160

Refractive

- Learning curve of laser-assisted subepithelial 24: 157
- Keratectomy: Influence on visual and refractive results 24: 157
- Low-Dose Mitomycin C as a Prophylaxis for Corneal Haze in Myopic Surface Ablation 24: 106
